EDUCATION

TECHNOLOGICAL INSTITUTE OF THE PHILIPPINES

Bachelor of Science in Information Technology, Specialization in Data Analytics

Manila, Philippines

Graduated: June 2026

PROFESSIONAL EXPERIENCE

RAKSO COMPUTER TECHNOLOGY INC.

Jan 2026 – Apr 2026

Backend Developer Intern

- Collaborated in the planning, design, and development of a new Event Management module for an existing web-based school portal using Laravel and SQLite.
- Designed backend workflows, system flowcharts, and feature specifications, and presented the proposed module architecture, interface, and implementation plan to project supervisors.
- Developed backend functionalities using Laravel and SQLite, implementing business logic and integrating database operations within the existing system.
- Worked closely with the development team throughout implementation, testing, and debugging using Agile Scrum practices.

TECHNICAL PROJECTS

ARSEMBLE: AN AUGMENTED REALITY APPROACH TO PC BUILDING WITH NLP

2025

Backend Developer

- Built backend functionality for user authentication and data management using Firebase.
- Implemented the Learning Hub feature using the YouTube API.
- Worked on debugging AR camera issues and improving application functionality.
- Supported backend integration for the educational AR + NLP application.

Tools & Technologies: Unity, C#, React, Firebase, YouTube API, Figma

PERSIAN ALPHABET CHARACTER RECOGNITION

2026

Machine Learning & Software Developer

- Designed an Optical Character Recognition (OCR) system that recognized Persian alphabet characters and converted them to Latin equivalents.
- Built and trained a custom Convolutional Neural Network (CNN) using PyTorch with OpenCV preprocessing, and developed an interactive Gradio interface backed by SQLite.

Tools & Technologies: Python, PyTorch, OpenCV, Gradio, SQLite

SMFP COMPUTER TRADING BUSINESS WEBSITE

2025

Frontend Developer

- Designed and developed a responsive business website using React, TypeScript, and Vite, with reusable components and layouts optimized for desktop and mobile.
- Integrated a dedicated section promoting the ARsemble application for client distribution.

Tools & Technologies: React, TypeScript, Vite

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python, PHP, C#, SQL

Frontend & Backend: React, HTML5, CSS3, Vite, Node.js, Laravel, Firebase

Machine Learning & AI: PyTorch, OpenCV, Gemini API

Databases: MySQL, MongoDB, SQLite, Firebase Firestore

Tools & Technologies: Git, GitHub, Unity, Figma, Gradio

TRAININGS AND WORKSHOPS

Generative AI Camp: Unlocking the Future with Generative AI – Amazon Web Services (AWS)

October 2024

Building Block: Hackathon – Ideation for Students – Dept. of Information & Communications Technology

September 2023
